NABILA K Bath Products Relax and Invigorate Your Senses

If you are looking for fresh, natural, and unique body products, look no further than NABILA K.

These fabulous products use the finest oils from around the world and combine them with natural elements to create an experience that is perfectly relaxing and exceptionally stunning.

Once you sink into a bubble bath or lather up - NABILA K will give you a relaxing experience that you will seek out again and again, and relaxation is as near as your bathtub and shower. Add in a few candles or diffusers to complete the experience!

NABILA K also offers travel sizes and travel pouches to keep these delicious scents with you at all times and when traveling, camping, or at the gym or an overnight.

NabilaK came into existence in 2010 after years of preparation and research. With no formal background in the beauty industry other than a lifelong love for skin care products, owner Nabila Khashoggi set out to create the best possible high-quality, naturally derived products. And she has succeeded!

Start with a delightful bubble bath and create some time for yourself. In scents such as Forest Experience Pine & Fir, Sunshine Zest Citrus & Eucalyptus, Sweet Surrender Almond & Honey, Heart of Provence Lavender & Sage, and Rose Garden Roses, you will melt away in a bath of comfort.

Additionally add these excellent enriching organic bath salts to your bathwater: in Chamomile, Hibiscus, Jasmine, Lavender, and Rose. (I really love these- they come in a frosted glass jar with a cute little scooping scoop and I feel so elegant scooping out my bathtime salts.) Or try the Safari at
